

CONTROL FEATURES

	MAGNETIC NETWORK CARD	OPTICAL CARD
Allocation By Product	Cards can be restricted to purchase selected products as required. 	Same 
Allocation By Total Purchase By Product	Quantity allocation by Product lets you specify limits on total gallons purchased per product, per card, per month or other defined time frame .	A card can be restricted to a pre-determined gallon amount of fuel per billing cycle .
Odometer Entry	The odometer option tracks miles per gallon, and number of miles the vehicle travels during the billing cycle.	Same
Expected MPG	Our system tracks the miles per gallon your vehicle receives.	Same
Miscellaneous Entry	Utilize this to track Vehicle, Equipment Branch, Ledger, driver, Job, or Department numbers. We can print reports per this entry.	Same
Customized 4-Digit PIN	Our blue Network Card allows you to choose your own Personal Identification Number	Cards have pre-assigned P.I.N's.
Date/Time Activation Control	Allows you to determine the date and/or time that card usage can commence and end.	Not available
Flexibility	Usage parameters such as adding or deleting a product can be changed from your office with a phone call and be in effect in less than 12 hours: no fee for the change or waiting for new cards to be issued. What's more, within minutes of your call , access by new drivers can be validated or access invalidated for drivers you no longer employ.	Card changes, validations and invalidations are effected overnight . Tried, true and durable, cards do not demagnetize .
Accepted Nationwide?	Card Accepted at MOST sites	Card accepted at ALL Pacific Pride Sites
